

PRO-FORM[®]

GET YOUR GUARD ON[™]

PROTECTION

The Pro-form® mouthguard laminate fits snugly around the teeth and mouth to allow the athlete to breathe and talk freely. A Pro-form® custom mouthguard lessens a blow to the face that would otherwise result in an injury to the mouth or jaw.

FOR THOSE THAT NEED IT MOST

Pro-form® even has thinner mouthguard material for younger athletes. Or get Extra-Pro Laminates, which are triple-layered to provide more protection and extra bulk for very high-impact sports such as Boxing or MMA.

WHY IT'S BETTER

Store-bought, boil-and-bite mouthguards provide some protection at low cost, but they are usually uncomfortable, ill fitting, and inhibit talking or breathing. Pro-form® mouthguards stay in place and have a consistent thickness and protection all throughout the piece.

- **Oxygen intake** for maximum performance and endurance
- **Speech** for clear communication on the field
- **Natural and secure fit** that won't hurt sensitive gums
- Dual laminated for **maximum protection**
- **Professional Fit** made for a perfect fit to any mouth size
- **Cool colors** with optional break-off strap

HOW IT WORKS

After a dentist takes an impression of the athlete's mouth, the mouthguard is vacuumed sealed around the impression to ensure a snug fit. The mouthguard laminate is dual-layered for ultimate comfort and maximum absorption of impact.

Pro-form® Mouthguard

Generic Boil & Bite

Tooth damage is 60 times more likely if a player is not wearing a mouthguard

60x

59.6% of children between the ages of 7 and 10 have the highest number of injuries

CUSTOMIZE IT

Pro-form® offers the ultimate in customization, which enables the option to print anything on the mouthguard. Do you want your name, jersey number, team logo on the mouthguard? Ask your dentist to get true customization with Pro-form's® centri-fuse.
